Greetings,

This is a request for the Director to refund fees paid in exceed of those established in 35 USC 41 as permitted under 35 USC 42(d). The facts are as follows:

On May 11, 2005 a request for EXTENSION OF TIME (see attached) was sent to the USPTO via Express Mail. With that request was a Credit Card charge form PTO-2038 (see attached). At that time I, the requester, requested a 60-day extension, and I had no reason to believe that further extension of time would be required.

I am now together with this request submitting an EXTENSION OF TIME request for an additional 30 days (a total of 90-days). This request also comes with a credit card charge form for the exact same account. Since it would be unfair for the applicant (through his representation) to only pay for a 30-day extension, an extension of 90-days is being requested with hopes for the 60-day extension fee to be refunded as a credit to that same credit account.

The requester hereby asks the director to refund the amount of \$225 and credit the account this amount was obtained from. Please advise of your willingness to do so via fax

Sincerely,

Richard S Missimer  
Reg # 45,537
